GIT Trainning Plan

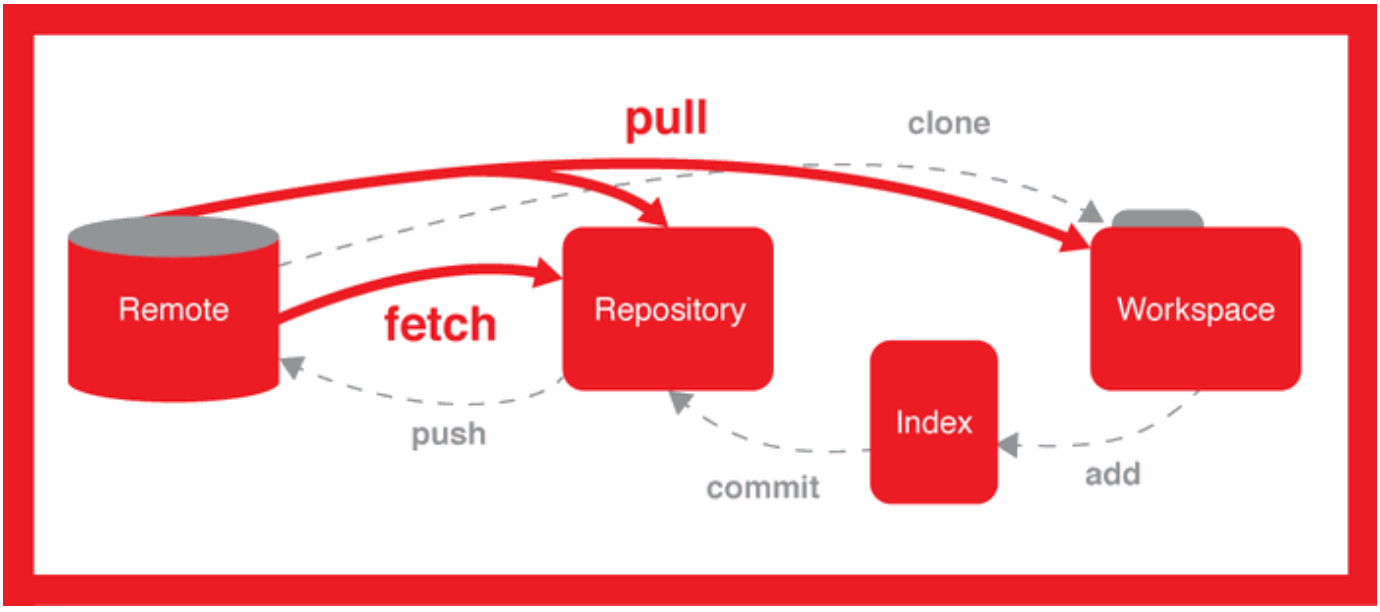
What is Git?

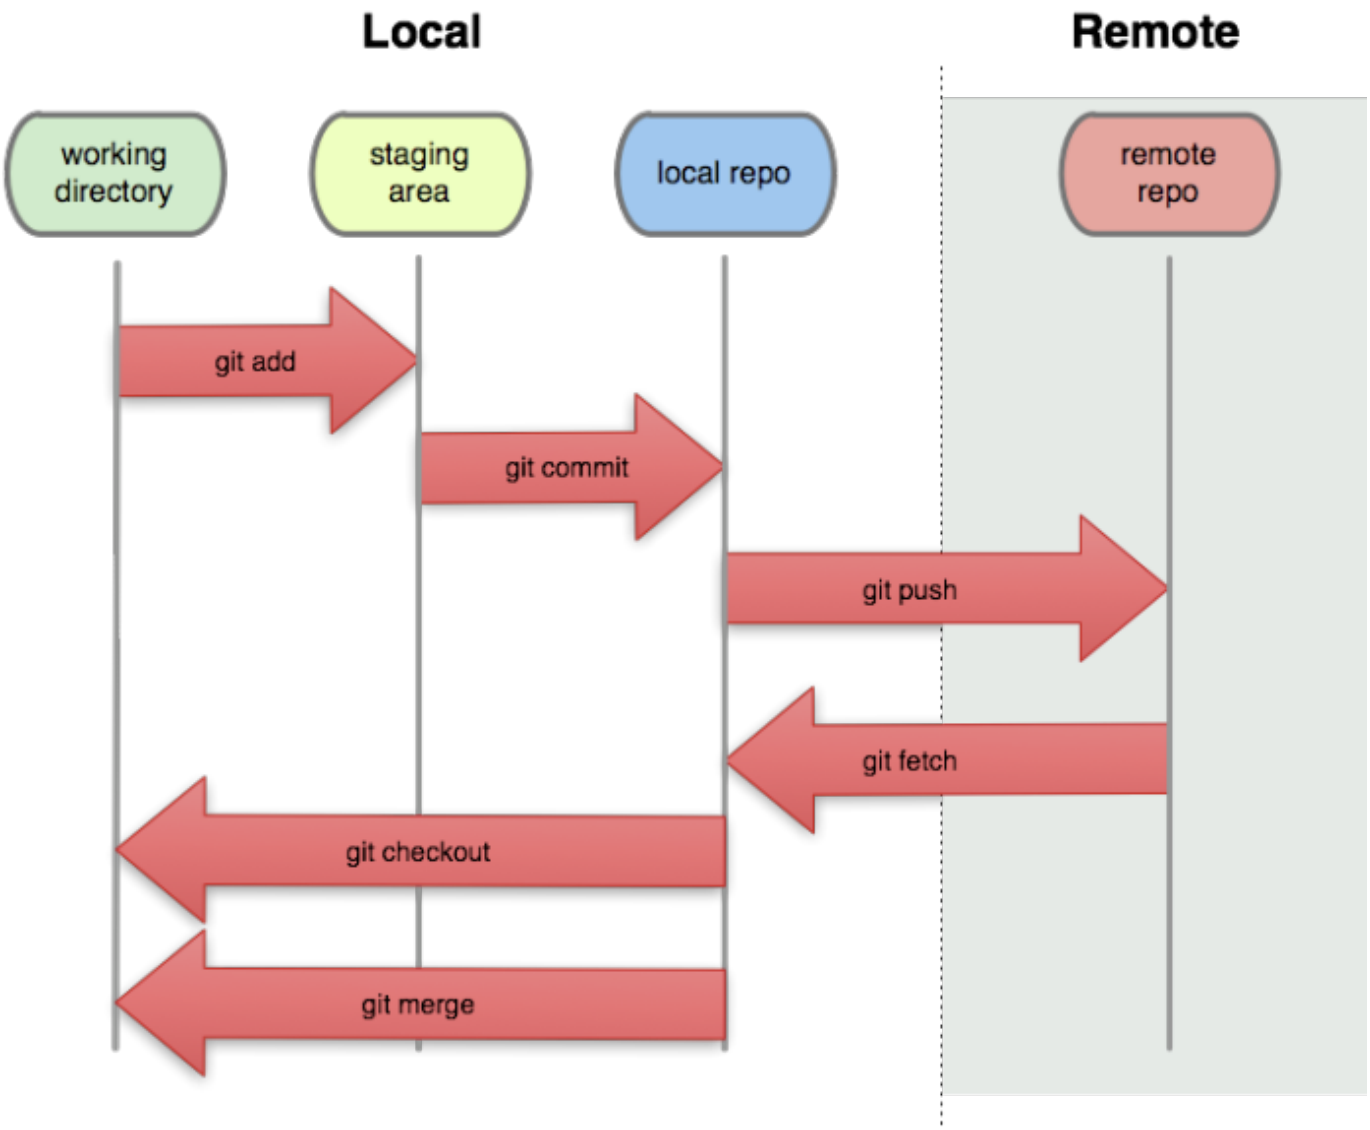
- **Version Control System (VCS)** is a software that helps software developers to work together and maintain a complete history of their work.
- Git is a free and open source distributed version control system designed to handle everything from small to very large projects with speed and efficiency.

Setup Git

- https://git-scm.com/book/en/v2/Getting-Started-Installing-Git
- Install via Homebrew:
  - Install Homebrew from this URL: https://brew.sh/index_vi.html
  - Install git: *brew install git*

Remote repository and **Local repository**





Local
Remote
working directory
staging area
local repo
remote repo
git add
git commit
git push
git fetch
git checkout
git merge
